WOOSTER CITY

Is located on the gently rising slopes of the Killbuck and Applecreek. It was laid out in the year 1808. It was incorporated in the year 1817, and became a city of the second class September 9th, 1868. It is noted for the healthfulness of its location, and its large trade with the surrounding country. It is divided into five wards, and it has five ward schools. Its High School building is located in a beautiful park, and is the admiration of visitors.

The University of Wooster is located on an eminence in the northern part of the city, overlooking the city and miles of fertile plains

and valleys.

Its streets are lighted with arc electric lights. It has a local telephone exchange. The long distance telephone connects it with the principal cities. Two great trunk railroads—the Pennsylvania and B. & O. systems, afford the best of traveling and shipping facilities. It has completed miles of sewers, which with their large outlets and rapid currents, make an admirable system.

The city owns its water works, which are unexcelled for purity of water, and the abundant supply that may be furnished, when the extension, now in progress is completed. The city has all its

principal streets paved with paving brick.

It has a magnificient City Hall and Opera House. Its mammoth factories are hives of industry for its busy population. Its popu-

lation is 10,000, not counting the suburbs.

The Ohio Agricultural Experiment Station is located one mile southeast of the Public Square. It comprises a beautiful tract of 500 acres of land, with its costly buildings and large green houses. They are an attraction for visitors.

WARDS AND THEIR BOUNDARIES.

Don't have that awful coal appetite; they cost less and do more with the same amount of coal than any other stove on the market..,

THE KIND OF ROOFING and SPOUTING

I do for you is the kind I put on my own house. I use the best LARGEST STOVE PLANT IN heavy coated tin and paint it with the best of paint. I do the kind of work for you that I would like to have you do for me. Let me put a job of spouting on your house; if you do not say it is the best all around job of spouting you ever had, and you are not satisfied you can have your money back

JOHN WEIMER,

GEORGE GERSTENSLAGER-

Weimer & Gerstenslager,

MANUFACTURERS OF

HIGH GRADE VEHICLES,

....STRICTLY HAND MADE....

Fine Ambulance, Undertakers' and Embalming Wagons.

Marshallville,

Ohio.

Business and Pleasure Vehicles and
Leaders of Fashion.

Fashion is just as distinctly evidenced in Carriag-

es as in any article.

Our superb collection of Vehicles places us in the front rank. Our Repository exhibits the finest types of Carriage Building in the state. We have all the ultra-fashionable models. Elegant new designs in medium priced carriages rival the more costly kinds in attractiveness. It is for you to choose. The swell turnouts are all here. We are building new ones every day. Nothing in Ohio to surpass our display. We are an old, reliable and experienced house, established in 1860. Remember that our work is strictly HIGH GRADE and HAND MADE. All the material is carefully selected and inspected. We employ none but competent and up-to-date mechanics in every department. We are systematically and thoroughly equipped for business, and the only concern in Wayne County that build ALL of our own vehicles. If you have never had the pleasure of using one of our Carriages, a trial will convince you. We refer with pride to our past success. We are slowly but surely gaining the patronage of the best trade, who appreciate the quality of our productions.

If you expect to be in the swim with the best of them, come and see us. We guarantee every vehicle we sell; you can rely on that. You know where to find us. If you compare our vehicles with the cheap John vehicles that are hawked around on the street corners, no use to try to buy from us.

However, we build a medium grade buggy—good style, good quality, and the price is within the reach of every body.

You can have one of our fine illustrated catalogues for the asking.

BIXLER BUSINESS COLLEGE.

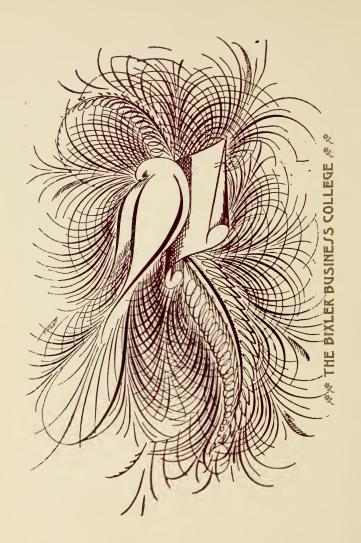

WOOSTER, OHIO.

We can give you a few ideas only. If you want to know more, get our 100 pp. catalogue.

The school, this winter, is more successful than it has been at any previous time. The reason of this is because:

- 1. The school is progressive and has the latest and very best of facilities for imparting a practical education.
- 2. Because of the unusual success of our graduates in the past year, in securing remunerative positions.

Gentleman:-In justice to you as a benefactor, and to my fellow men as suffering brothers with Sciatic rhuematism. I wish to say that after trying a series of remedies without relief or benefit, that in the fall of 1897 I purchased one of your belts with the limb attachments. Wore them in the daytime for about six months. My right limb was shrunken away. My back had the regular Sciatica crook, and to its natural size. was said to have curvature, in fact I my neighbors said that I would never walk any more. I can say that from

the effects of the belt, that I am as New Castle, Pa., erect as any man. I am sixty-one Feb. 10, 1898. years old. The belt in my case seems Gentlemen: -I can cheerfully recom- to bring relief and a cure by increas-
